

AlphaNet node/master

IO module with wireless transmitter for e.g. home automation, mesh networking, wireless call system, nurse call, ...

Technical specifications

Power in	12-24 VDC
Relay	1 relay 1A, 30 VDC – 0.5A, 125 VAC with common, normal open, normal closed contact.
Interface	RS485
Digital inputs	4
Digital outputs	4, type open collector
Micro controller	Low power micro controller with integrated RF
RF band	ISM RF band 868 MHz
Housing	Black anodized aluminum
Mounting	Module for din-rail mounting (width: 4 modules)
Fixation	Industrial screw connectors
Antenne connectot	SMA connector for supplied antenna
Warranty	2 years
Reference	1-040504-0001-000-000-00
